Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The best art found by examiner in the case was Buettgenbach et al (2002/0032613) and Walker et al 6,754,636. '613 shows generally the method of purchasing an item via the internet, designating a location to pick the item up and presenting identification information at the location in order to pick it up. Walker shows unique identification information associated with an order, and shows the use of a one way function. Neither reference separately or in combination shows a identification information associated with a transaction that is "unique to and derived from the orderer and the target article [the

purchased item] on the basis of the order information”, where the identification information is further generated by a one-way function “on the basis of the order information received from the virtual shop” and contains “numerals of specified digits of a telephone number corresponding to the communication terminal used by the orderer”. Further, the examiner was unable to find any other reference or combination of references which could be reasonably combined to show the missing elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven B. McAllister whose telephone number is (571) 272-6785. The examiner can normally be reached on M-Th 8-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Alexander G. Kalinowski can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
